Career Objective

Computer Science Engineering graduate with hands-on experience in frontend development and building responsive web applications using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS. Familiar with backend technologies including FastAPI and PostgreSQL and experienced in integrating APIs and developing scalable solutions. Passionate about creating intuitive user experiences and seeking a Frontend Developer role to contribute to innovative products and grow as a software engineer.

Education

Bachelor of Technology (B.Tech) in Computer Science Engineering

AKS University, Satna, Madhya Pradesh

2022 – 2026

CGPA: 7.35 / 10

Technical Skills

Programming Languages: C, C++, Python, JavaScript

Frontend Technologies: HTML5, CSS3, React.js, Tailwind CSS

Backend & Frameworks: Node.js, Express.js, FastAPI

Databases & Tools: MongoDB, Git, GitHub, VS Code

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Computer Networks

Projects

Digital Garage – Full Stack booking Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT

- Developed a scalable full-stack e-commerce platform with a modern, responsive user interface using React.js
- Implemented secure authentication and authorization using JWT and bcrypt to ensure data protection
- Developed a role-based admin dashboard to manage users, products, and orders efficiently
- Built RESTful APIs using Node.js and Express.js for seamless frontend-backend communication
- Structured and optimized MongoDB database for efficient data storage and retrieval

AI Chatbot – Full Stack AI Application

Tech Stack: React.js, FastAPI, Python, Gemini API, Tailwind CSS

- Developed a full-stack AI chatbot capable of handling real-time user interactions with dynamic responses
- Built backend services using FastAPI for efficient, secure, and high-performance API handling
- Integrated Gemini API with a fallback mechanism to ensure reliability and uninterrupted responses
- Designed a responsive and user-friendly interface using React.js and Tailwind CSS
- Implemented seamless frontend-backend communication using Vite proxy configuration
- Structured the application with a modular and scalable architecture for future enhancements

Internship / Experience

Software Developer Intern | MP Online Private Limited

December 2025 – June 2026 (6 Months)

Project: Expense Tracker Application

Tech Stack: React.js, FastAPI, PostgreSQL

- Developed a responsive Expense Tracker application to manage daily income and expense records.
- Built reusable and interactive user interface components using React.js.
- Integrated frontend components with FastAPI backend APIs for seamless data communication.
- Implemented CRUD operations for adding, updating, deleting, and managing transactions.
- Utilized PostgreSQL for efficient storage and retrieval of financial data.

Additional Information

Languages:

Hindi (Native), English (Professional Working Proficiency)

Interests:

Web Development, Problem Solving, Artificial Intelligence, Building Scalable Applications
